

Arrival of the Steamship Pacific-Great in New York.

New York, Aug. 12.
The Pacific arrived at New York on the 12th. The British House of Commons admitted Baron Rothchild by a large majority.

The Danish question is exciting great interest in England. It is thought England may make a move to protect her commerce on the Baltic.

Smith O'Brien is to be removed to Hobartstown, and closely confined. The French fleet had sailed, and its destination was thought to be Holstien, to take part in the intervention between Denmark and the Duchies.

The war between Denmark and the Duchies has commenced in earnest. On the 28th ult. the two armies met and a regular engagement ensued, in which the Danes were victorious. The battle lasted some hours. Danish force about 25,000, the Insurrectionary about 20,000. The killed, wounded, and missing are put down at 7,000.

"CALIFORNIA WHEAT."—The Stou-benville Messenger says:—We were shown a specimen of California wheat, grown by Mr. S. McMillan, near this city, which is decidedly superior of the wheat kind than we have ever before seen. He planted, last fall, one grain, which came in a letter from San Francisco, and the yield was fifty-nine heads, varying from four to six inches in length, and averaging five inches.

We rubbed out one of the heads, and found that it had contained seventy-nine grains—the average of the ordinary varieties of wheat being not greater than from twenty to thirty. The grains were very large and plump.—Steu. Her.

Important New Development in Professor Webster's Case.

We have just learned of some facts which go far to show the utter falsity of Prof. Webster's confession as to the disposition of Dr. Parkman's body, and by which he attempted to show his want of premeditation in the killing.

A student at the Medical College has this morning, for the first time, disclosed that at the time of the murder, while he was in the dissecting room entry, he distinctly heard sounds of something being dragged over the stairs, leading to Prof. Webster's lower laboratory—which he has now no doubt been thus produced by the descent of Dr. Parkman's body.

An examination of the sink in the upper laboratory, described by Prof. W. as the one he used for the dismemberment of the body, demonstrates its positive incapacity for the purpose, it being of very small size.

And furthermore, the hand-hose which the Professor speaks of in his letter of explanation to the Council, as used by him to convey water to said sink, this morning measured by officer O. H. Spurr, and found to be a couple of feet too short for that object!

MORE GOLD IN GEORGIA.—A gold mine has been discovered on the land of Dawson Law, of Morgan county, in Georgia, which promises to yield an abundance of the precious metal. Mr. Law states that a man can easily make five dollars a day by digging. Particles the size of a pea are found in abundance.

Go where you will, talk about what you may and you will either see or hear of the great Arabian preparation, known to the people of the United States as H. G. Farrel's Celebrated Arabian Liniment. It has made some of the most remarkable cures of paralysis, rheumatism, nervous affections, spinal complaints, &c., on record, and indeed as an external remedy is applicable to nearly all diseases which could possibly be benefited by a medicine of that kind.

Beware of a spurious preparation called W. B. Farrel's Arabian Liniment, a base counterfeit, which has just made its appearance.

SYMPTOMS OF DISEASE
Should never be disregarded. They are unerring indications that the vital functions of nature have been interrupted in their healthful action, and that serious evils must inevitably follow, unless the system be again set right by the timely use of proper remedies.

And, in seeking these, it is all important that resort be not had to drastic purgatives or other medicines of a violent kind, which reduce the strength, and so prostrate the powers of nature, that they are unable to repel the threatened attack.

Best in mind, that nature is ever endeavoring to expel disease when it invades the animal economy, and only needs the assistance of some genial restorative—through, yet mild in its action—that will give tone to the system, and set upon the blood—which is the principle of life.

Guyot's Yellow Dock and Sarsaparilla, as a purifier of the blood, a renovator of the system, and a supporter and preserver of the powers of life, it has no equal. Take it, on the first indication that disease is upon you, and you will avert perhaps weeks and months of sickness and suffering.

MARRIED.—On the 11th inst., by the Rev. A. A. Martin, Mr. JAS. PRESTON, of this county, to Miss ELIZABETH SMITH, of Putnam county, Va.

In this place, on the 12th inst., by S. B. Rathburn, Esq., Mr. T. H. WILCHER to Miss ANELIA J. PRESTON, both from the Old Dominion.

OBITUARY.
Died, in Clay township, on the 6th instant, of inflammation of the brain, MELISSA ADALIDE, third daughter of Truman and Hannah Guthrie, aged 14 years and 6 months.

She's gone to pluck bright blooms above, That grow in Eden bowers, Hard by a throne of heavenly love— Those fair and fadeless flowers.

In this place, on the 9th inst., at the residence of Mr. C. Stone, WM. P. HARVEY, in the 39th year of his age.

The deceased was on his return home to Lynchburg, Va., from Trigg county, Ky., when he was taken sick, and landed from a steamboat at this place, among strangers, who kindly ministered to his wants up to the time of his decease. It will be gratifying to his relatives to know that he received all the attention that could be bestowed upon him during his illness.

On Thursday evening, the 18th day of July, of dysentery, VIRGIL N. CHERINGTON, son of Jas. W. and H. Cherington, aged 11 years and 6 months.

On Monday evening, 5th instant, of dysentery, S. O. RHONIA CHERINGTON, daughter of Jas. W. and H. Cherington, aged near 9 years.

The morning flowers display their sweets, And gay their silken leaves unfold, As careless of the noontide heats, As fearless of the evening cold; Nipt by the wind's untimely blast; Parch'd by the sun's directer ray, The momentary glories waste, The short-liv'd beauties die away.

So blooms the human face divine, When youth its pride of beauty shows, Fairer than spring the colors shine, And sweeter than the virgin rose. Or worn by slowly rolling years, Or broke by sickness in a day, The fading glories disappear, The short-liv'd beauties die away.

Yet these new rising from the tomb, With lustre brighter far shall shine, Renewed with ever-during bloom, Safe from diseases and decline.

Let sickness blast—let death devour, If heaven must recompense our pains, Perish the grass and fade the flower, If firm the word of God remains.

An Indian War Brewing on our Frontier.

On the 19th ult., a party of Cherokees and Creeks, numbering about 80 warriors, armed and equipped for the occasion, marched upon Weewoka, in the Seminole country, on the North Fork of the Canadian, with the view of attacking a negro town, where there were over a hundred able bodied men, and taking a number of said negroes, alleged to be slaves of certain Creeks and citizens of Arkansas.

It seems that twelve of the Indians camped some ten or twenty miles from the negro town, intending to go the next night and charge upon it. The news of their arrival reached the negroes, and they armed themselves and sent word of defiance to the Creeks, and the next day a party of Seminoles, all striped and painted, appeared on the opposite bank of the creek, who sent a banner for a fight. Upon these belligerent demonstrations, they concluded to come to a parley.

When last heard from, the head chiefs of the Upper Towns (Creek) had repaired to the scene of difficulty, and with the chiefs of the Seminoles were waiting for the arrival of Col. Duval, the Seminole Agent, to go into council.

This negro town is a den of runaway slaves, where every negro who can make his escape from Louisiana and Arkansas is harbored.—Arkansas Intel.

The charges of Home.

DEPENDS so much upon the possession of health, that nothing having its preservation in view should be overlooked or neglected. All persons, old and young, male and female, should preserve, cherish, watch and guard their health, and at the first symptoms and first approach of ill health, use promptly the proper remedy.

The Genuine Shaker Sarsaparilla.

As PARSONS Dr. S. D. HOWE, is a new medicine, now offered for the first time. Its well established reputation has been fairly gained by its numerous remarkable cures during many years of constant use throughout New Hampshire and New York. The Medical profession generally in the Eastern States now recommend, and use in their private practice, this valuable medicine, for all diseases arising from impurity of blood.

Shaker Sarsaparilla, IN QUART BOTTLES, PREPARED BY DR. S. D. HOWE, is the Unrivalled Remedy for all diseases of the Liver, Dyspepsia, Jaundice, and all Bilious Disorders. This valuable FAMILY MEDICINE.

Is prepared with great care, and is PURELY VEGETABLE. Its power over the above diseases is not excelled, if equalled by any other preparation in the United States, as numerous cures attest. IN CASES AFTER SUCCESSFUL PHYSICIANS HAVE FAILED.

A critical case cured by the use of Dr. Howe's SHAKER SARSAPARILLA, and certified by Dr. S. Jackson, a distinguished Physician in Indiana. Such testimony is worth more than a column of ordinary advertisements.

Dr. S. D. Howe.—Dear Sir: I have been afflicted with a Cough for the last three or four years, which came very near taking me to my grave, despite of all the medical aid from my family physician. I had despaired of ever again being restored to health. Six months ago I noticed the advertisement of your Shaker Sarsaparilla, and I immediately sent and procured one bottle, and I began speedily to improve, and obtained another bottle. The result of taking two bottles of Dr. S. D. Howe's Shaker Sarsaparilla has caused me to say to you, and every one whom it may concern, that I am entirely relieved from all cough and pain in the breast.

MRS. N. GRAVES.
The great success which has attended the use of Dr. S. D. Howe's Shaker Sarsaparilla since its introduction into the Western States, has established its character in this section of country.

This is the only Sarsaparilla that acts on the Liver, Kidneys and Blood at the same time, and hence its singular efficacy and success. Be sure and get Dr. S. D. Howe's Shaker Sarsaparilla, and take no other.

Quart bottles \$1 per bottle or 6 bottles for \$5. For sale by MAGUET & NARET, Gallipolis; D. REECE, Pomeroy; E. B. Perkins and Götting & Howe, Marietta; and by DR. S. D. HOWE & CO., No. 1 College Hall, Walnut street, 2 doors above 4th, Cincinnati, Ohio.

Hon. E. W. M. King, Professor of Theory and Practice of Law.
Hon. V. D. Barry, Professor of Commercial Jurisprudence.

TERMS.—\$50 dollars per Session.
All communications pertaining to this Department must be addressed to E. W. M. KING, Memphis, Tenn., July, 1850.

The Faculty, for intellectual abilities, moral worth and professional acquirements, will compare favorably with the most distinguished in our country. The medical faculty constitutes an anomaly in this or any other country—all of them are able lecturers and the best of teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that any other city has more.

A common error exists in the minds of many students relative to the practice of studying medicine; those who intend practicing among the diseases of the West and South should certainly educate themselves at a school whose Faculty are practically acquainted with those diseases.

The public may be satisfied of the permanency of this school, we feel it our duty to state, that the Trustees and Faculty form a unit in action, which augurs well for its future success; and that the peculiar internal organization which connects them, cannot be later ruptured.

DR. GUYOTT'S

Extract of Yellow Dock and Sarsaparilla.

DR. GUYOTT'S IMPROVED EXTRACT OF YELLOW DOCK AND SARSAPARILLA, put up in the largest sized bottles contains more of the purest *Honduras Sarsaparilla* than any other preparation extant which is chemically combined with the Extract of Yellow Dock, the Extract of Wild Cherry, and the Balsam of Fir, thus making the remedy more thoroughly efficient than any other Sarsaparilla before the public. At the same time it is perfectly free from all mineral poisons, which cannot be said of any other Sarsaparilla compounds. The ingredients should be purest. Mercury, Iron, Quinine, Potash, Iodine, Sulphur, Arsenic, and many other mineral and metallic poisons enter into and form the active basis of most of the Sarsaparilla and Pansens of the country. Compound Extract of Yellow Dock and Sarsaparilla does not contain a particle of these substances, as any one can easily ascertain by applying the necessary tests.

These poisons may occasionally remove disease, but they so vitiate the blood, and so completely impregnate the whole system with their baneful effects, that the first cold, the first attack of disease, prostrates the patient's strength, and subjects him or her to the most excruciating torture, and renders another cure almost impossible and dangerous. All poisonous Sarsaparilla preparations, and all Guyott's Improved extract of Yellow Dock and Sarsaparilla, which is thoroughly efficacious, perfectly harmless, and purely vegetable. All kinds of disease yields to its genial influence.

CURES.
Scrofula, Cancerous Tumors, Cutaneous Eruptions, Erysipelas, Bites, Pustules, or Pimples on the Face, Chronic Sore Eyes, Tetters, Scald Head, Rheumatism, Enlargement of the Glands, Blotches, Syphilitic Symptoms, Lumbago, Dropsy, Dyspepsia, Jaundice, Constipation, Salt Rheum, Affections of the Kidneys and Bladder, arising from an injudicious use of Mercury, Minister's Sore Throat, Weakness of the Chest, Pulmonary Affections, and all other diseases tending to emaciate the system, Liver Complaint, Female Irregularities, and Complaints of the Nervous System, Headache, General Debility, Low Spirits, Loss of Appetite, Night Sweats, Pains in the Side and Shoulders, Exposure of Imprudence in Life, Chronic Constitutional Disorders, and as a Spring and Fall Purifier of the Blood, and General Tonic for the System, it is unrivalled.

A Case of Ulcerated Limbs of sixteen years standing.
The following is an extract of a letter, dated March 27, 1850, from E. B. Perkins, M. D., a highly respectable physician of Marietta, Ohio: "JANUARY.—Dear Sir: I have under my care a young woman who, for sixteen years, has been suffering from Ulcerated Limbs, and whose case has been pronounced hopeless by three of our best physicians. I took her into my family, and have used Guyott's Yellow Dock and Sarsaparilla freely, and am confident that the Yellow Dock and Sarsaparilla will effect a permanent cure. She is better in general health than she has ever been before, and walks a mile or two without fatigue or pain. A year ago she used to cry out, 'I will report the case in due time.'"

Very respectfully,
E. B. PERKINS.

An Extraordinary cure of Quick Consumption.
Youngville, Warren co., Pa., July 1st, 1850.

Mrs. S. F. Bennett, Co.—Gentle: I wish to express my thanks to you for the great benefit your Extract of Yellow Dock and Sarsaparilla has been to me. My mother had a violent attack of Erysipelas in March last, which left her with a violent cough, hectic fever, and general debility. Our physician, in despair of her recovery and stopped prescribing for her, pronounced her complaint "Quick Consumption" and said she could not live but a very few days. We had despaired of her recovery, and did not expect her to live for one day to another. Her life was reduced to the lowest ebb. She was completely emaciated and perfectly helpless. At this critical time, we saw your advertisement in the Pittsburgh Gazette, and immediately sent to your agent, in Franklin for three bottles, which she commenced taking, and from the first day she began to mend, and continues to do so up to this time. She is now able to attend to household affairs, and is perfectly well, though not as strong as she was before she was sick. There are a great many of our citizens, that
